ANNUAL REPORT

of the Medical Officer of Health for the year 1960

To The Chairman and Members of the Arnold Urban District Council

1961.

Mr. Chairman, Madam and Gentlemen,

I present herewith my Annual Report for the year 1960, together with that of Mr. Harrison the Chief Public Health Inspector.

Housing remains the chief public health problem causing difficulty. The slum clearance scheme will take fifteen years to complete at the present rate of progress. Before then, there will be other properties which should be added to our scheme.

Of the 460 properties scheduled for demolition in 1955, the following figures give the number rehoused each year:

1955		11
1956		23
1957		11
1958		19
1959		74
1960	<u> </u>	39

The problem of atmospheric pollution and its control is bedevilled by shortage of staff. With but one full-time Health Inspector and a student, who is dissatisfied with his prospects, there is small hope of our carrying out our statutory obligations in this matter any better than we are carrying them out in some others.

A further complication is the building of an abattoir in the district which will need a greater proportion of the inspector's time on meat inspection.

I have the honour to be, Madam and Gentlemen,

H. D. H. ROBINSON,

Medical Officer of Health.

GENERAL PROVISION OF HEALTH SERVICES FOR THE AREA Laboratory Facilities.

The Public Health Laboratory, being the laboratory for the Notts Area under the Public Health Laboratory Service of the Medical Research Council, carries out the following examinations:—

Milk: Phosphatase Test, Methylene Blue Test,

Bacteriological, etc.

Ice Cream: Methylene Blue Test, Grading, etc.

Food: Bacteriological examination of foodstuffs.

Water: Bacteriology of water.

Pathological

Specimens: Bacteriology and pathology of swabs, sputa,

etc.

The Laboratory carries out many other functions but the above are the main ones the Department is likely to require. The Service is a most excellent one and is available to the Medical Profession.

City Analyst's Laboratory.

Similar examinations to the above are carried out in respect of milk, ice cream and water. The Laboratory is also able to carry out chemical analysis of food. Mr. W. W. Taylor, B.Sc., F.R.I.C., is an official analyst for the purpose of the Food and Drugs Act, 1938.

Ambulance Service.

Two ambulances are stationed at the Arnold Sub-depot and are available for use in the Arnold Urban and surrounding districts. These vehicles are under the direct control of the Notts County Council Ambulance Control, Telephone number 55939.

MATERNITY AND CHILD WELFARE SERVICES.

Maternity Services.

These Services are supplied by the Nottinghamshire County Council.

The present arrangements for the clinics are :-

ARNOT HILL PARK—ANTE-NATAL CLINIC—Alternate Tuesday afternoons.

These clinics are from 2 p.m. until 4.30 p.m. and post-natal cases are seen at these sessions.

Attendance Figures for Clinics.

ANTE-NATAL ATTENDANCES:

First attendance (New Cases) .. 25 (18 in 1959)

Total attendances 114 (136 ,, ,,)

POST-NATAL ATTENDANCES:

Total attendances 14 (13 ,, ,,)

Number of Ante-natal Clinics held .. 24 (24 ,, ,,)

Midwifery Service.

The services of the following midwives are provided by the Nottinghamshire County Council.

Miss E. Greensmith,

11, Cornwall Road, Arnold .. Nottingham 26-2538

Mrs. M. Benson,

17, Spring Lane, Mapperley .. Nottingham 26-2197

Miss Straw,

104, Bédale Road, ... Nottingham 26-3113

Mrs. E. H. Cutts,

12 Clarborough Drive, Arnold .. Nottingham 26-8167

Care of the Unmarried Mother.

Cases under this heading have been dealt with during 1960. Excellent co-operation exists between the Health Staff, the County Almoner Service and the Southwell Diocesan Board of Moral Welfare.

All cases are admitted to hospital in order that all necessary steps can be taken to rehabilitate the mother.

The Child Welfare Service.

All newly born babies are visited as soon as possible after discharge from the maternity hospital or after the midwife has ceased to attend and advice is given by the Health Visitor. All cases are encouraged to attend the child welfare clinics. At all these clinics medical advice is available.

The following Clinics are held:-

ARNOT HILL PARK:

Wednesday and Thursday afternoons .. 2—4.30 p.m.

CAVENDISH STREET CLINIC:

Monday afternoon 2—4.30 p.m.

MAPPERLEY (1A, PLAINS ROAD) CLINIC:

Friday afternoon 2—4.30 p.m.

CONSULTANT OPHTHALMIC CLINIC—ARNOT HILL PARK.

Alternate Tuesday afternoons .. 2—4.30 p.m.

(Appointments made by School Health Service, Fletcher Gate, Nottingham)

CONSULTANT PAEDRIATIC CLINIC appointments made at the County Health Department after reference from the Child Welfare Clinics.

Attendance figures for Clinics.

	Total Attendances.	Medical Consultations
Arnot Hill Park	(4,879) 4,718	(1,777) 1,774
Cavendish Street	(2,393) 2,248	(961) 824
Mapperley	(2,111) 2,312	(799) 901

The figures in brackets refer to the attendances in 1959. It should be noted that there are two clinics per week at Arnot Hill Park compared with weekly ones at the other premises.

INDIVIDUAL ATTENDANCES:

The figures in brackets refer to the attendances in 1959.

Supply of Welfare Foods

Various types of welfare foods are available on sale at the clinics and are in great demand by the mothers attending with babies.

These foods, i.e. National Dried Milk, vitamin tablets, codliver oil and orange juice, are available at the following times at the Child Welfare Centre, Arnot Hill Park —

Monday afternoon 2 p.m. to 5 p.m.

Wednesday afternoon .. . 2 p.m. to 5 p.m.

Thursday afternoon .. . 2 p.m. to 5 p.m.

Saturday morning 9 a.m. to 12.30 p.m.

Supplies are also available at the Cavendish Street and Mapperley Clinics during the clinic sessions.

Diphtheria Immunisation Service.

The clinic is held as follows:-

Arnot Hill Park-First Friday in each month-2.00 to 4.30 p.m.

Children resident in the Mapperley area are seen at the clinics held at 1a Plains Road.

The following table gives the total number of children immunised against diphtheria, and therefore completely protected against this disease, up to the end of 1960.

Age at 31-12-59 i.e. Born in Year		Under 1 1960	1-4 '59 ·56	5-9 '55-51	10-14 '50-46	Total under 1 5
Last complete cours injections (primar booster) A 1956 - 1960		196	1,524	1,3 90	88	3,198
B 1955 or earlier		_	_	517	1,799	2,316
TOTA	LS	196	1,524	1,907	1,887	5,514

	Immunisation			State 31st	De	cember, 1960
	U	Inder 1	year	1—5 years		5—15 years

No. immunised		196		1,524		3,794
Percentage immunised		42.5		97.0		85.2

Smallpox Vaccination

There has been no change in this service during the year, this clinic being held during the immunisation clinic on one Friday afternoon in each month.

The following figures represent the year's work in this important preventive service. These figures include the cases dealt with by the

family doctors.

J	Under	1 year.	2-4	514	15 yrs.	Total
	1 year.		yrs.	yrs.	and over	
Primary Vaccinations	294	13	11	10	8	336
Re-vaccinations		_	2	3	25	30

Percentage of children vaccinated:

Under 1 year .. 63.8% 1–5 years .. 76.0%

Poliomyelitis Vaccination.

During the year 497 children were inoculated.

The following is a classified summary of the number of people who received two injections during the year:

		Under Health Department arrangements	Practitioners	Total
Children born in years 194	186	311	497	
Young persons born in y 19	ears 34-1943	47	109	15 6
Under 40		274	548	922
Special Classes		10	13	23
		515	983	1,498

2,211 people received the 3rd injection during 1960. Percentage of children protected with 3 injections:

Age 1–5 years ... 77.5% Age 5–15 ... 79.2%

Tuberculosis Vaccination

Vaccination with B.C.G. was continued during the year. The practice is to limit it to children in their fourteenth year, in whom resistance is therefore established by the time they begin work. 84.2 $^{\rm o}_{\rm o}$ of parents accepted, and 305 children were vaccinated during the year.

Daily Guardians

The County Council maintains a system of daily guardians for the children of mothers who must go out to work. There is no Day Nursery available. The mother concerned must find the guardian, who receives a small payment from the County Council if approved, the mother having to make her own arrangements for the cost of feeding and attention.

Home Help Service.

A Home Help Service is provided by the Nottinghamshire County Council. The local organiser is at Park House Clinic, Carlton (24-7151), and can be seen at Arnot Hill Park Clinic on Wednesdays from 12 noon to 2 p.m.

Nursing in the Home.

Arnold, Woodthorpe and Daybrook District Nursing Association. Hon. Sec.: Mrs. E. Lawrence, 259 Mansfield Road, Redhill.

District Nurses are:

Mrs. E. E. Brown, 33 Church Crescent, Daybro	ok	 26-8658
Miss D. Carratt, 111 Somersby Road		 26-8658
Miss I. Morgan, 32 Derry Hill Road, Arnold		 26-3542
Mrs. C. R. Cocks, 38 Rufford Road, Sherwood		 69628

Dental Services-Maternity and Child Welfare

The Dental Service for pre-school children and expectant and nursing mothers is provided by the Nottinghamshire County Council. This service is still inadequate for the children of the district. Complaints are still received from parents regarding the difficulty of obtaining preventive and conservative dentistry for children both from private and public sources.

School Health Service.

SCHOOL CLINIC .. every Monday and Thursday morning 9 a.m.—12.00 noon.

A Medical Officer attends every Monday morning but not on Thursdays. The clinic is held in the premises of the Child Welfare Centre in Arnot Hill Park.

An Ophthalmic consultant conducts a clinic on alternate Tuesday afternoons at Arnot Hill Park Clinic.

National Assistance Act, 1948, Section 47.

No cases have been dealt with under this heading during the year.

The Welfare Officer for the District for the purposes of this Act is :—

Mr. H. J. Dean,

Office—1a Plains Road, Mapperley.

Nottingham 66687.

Office hours 9 a.m.—10 a.m. and 4 p.m.—5 p.m.

Mr. Dean is also the Duly Authorised Officer for the Mental Health Service.

Annual Report of the Chief Public Health Inspector for the year, 1960

HEALTH DEPARTMENT,
ARNOT HILL PARK,
ARNOLD.

To The Chairman and Members of the Council,

Mr. Chairman, Madam and Gentlemen,

I beg to present my 35th Annual Report on the Sanitary Circumstances of your Urban District for the year ending 31st December, 1960.

It is to be regretted that this Report has been so long delayed, but full details of the work carried out by the Department will be found under the various headings of the report.

I have to record my appreciation of the manner in which the Staff and Workmen of the Department have carried out their duties, also the co-operation from the Chief Officers and Staff of other Departments, and to thank the Chairman and Members of the Public Health and Housing Committees for their continued support during the year under review.

I have the honour to be, Madam and Gentlemen,

Your obedient servant,

F. HARRISON, Chief Public Health Inspector. Housing Inspector.

SANITARY CIRCUMSTANCES OF THE AREA.

Water Supply

The Corporation of the City of Nottingham is the Water Authority for this Urban District.

A constant supply of drinking water has been available throughout the district during the year.

No samples of drinking water were submitted to the Public Health Laboratory for Bacteriological examination.

Swimming Baths

The Public Baths have been well conducted during the year under the able supervision of Mr. J. J. Baker, Baths Superintendent. No complaints were received by the Health Department as to unsatisfactory hygiene conditions.

For the financial year ending 31st March, 1961, the income from all sources was £2,666 (£2,824) with an expenditure of £5,587 (£5,684) leaving a balance of £2,921 charged to the Rate Fund, equivalent to a 2.16 Rate.

Drainage and Sewerage

Foul sewerage from the whole of the built up area of the Urban District is dealt with by the Nottingham Corporation at their disposal works Stoke Bardolph at a cost to this District of £17,115 for the year ending 31st March, 1961.

The cost of maintenance and repairs of sewers within the Urban District for the same period was £17,460 including £13,852 Loan Charges; this figure also includes the Loan Charges on the major storm water scheme now nearing completion.

Rivers and Streams

There are no Rivers or Canals within the District.

The five tributary streams draining the areas:—

- Gedling Road confluence via Arno Vale Road and Thackerays Lane.
- Coppice Road confluence via Bentwell Avenue and Brookfield Road.
- 3. Kingswell confluence via Nottingham Road Recreation Ground.
- 4. Calverton Road confluence via Front Street and Nottingham Road.

5. Redhill confluence via Mansfield Road to Jubilee Road.

All converge into the Daybrook which in turn discharges into the River Leen at Bobbers Mill in the City of Nottingham, via the Valley Road Playing Fields.

Closet Accommodation

The position throughout the district generally is in my opinion entirely satisfactory in that a water carriage system operates to the extent of 100 per cent.

No more than 11 Pail Closets remain in outlying parts of the district.

Cesspools

There are approximately 107 cesspools in the outlying parts of the Urban District, on the East, Northeast and Northern boundaries, where public sewers are not available. These are emptied by the Council on request twice a year (Spring and Autumn) at a charge of 30s. 0d. per 800 gallons. An income of £134 was received during the year for emptying cesspools, expenditure £96.

Clean Air Act, 1956

No complaints were received during the year regarding nuisances from Smoke. 10 observations were made by the Department.

The air pollution measurement apparatus installed at the Public Library in August, 1959, continues to operate, recordings from this instrument are sent monthly to the Department of Scientific and Industrial Research, Warren Spring Laboratory.

It is hoped to include suitable data on this subject in future reports.

Public Cleansing

The collection of house refuse was well maintained in 1960. The second Dennis 18/24 cub. yd. Paxit refuse vehicle came into service on the 1st May, 1960. The change over to this type of vehicle from side-loading vehicles has been very satisfactory in dealing with the bulky nature of house refuse which has gradually developed over the last few years.

A total of 947 man-days were lost during the year, as follows:— Injury and sickness 427 days, absent 46, annual holidays 259, Bank holidays 215, as compared with 1,016 days in 1959. This is equivalent to 2.8 men off work per week during the year, excluding the Bank holidays. Trade Refuse charges produced £232.

EXPENDITURE AND INCOME year ending 31st March, 1961, from the Abstract of Accounts prepared by the Chief Financial Officer.

Expenditure: Collection: Administration—Collection and Disposal	£	£ .	(900)
Wages, Superannuation and Insurance	10 370

<u> </u>			

Refuse Disposal

The provision of suitable sites for the controlled tipping of house refuse on a long term basis continues to receive the attention of the Public Health Committee. The small site in the Dorkett Head Brickyard commenced on the 21st February, 1959, was completed on the 29th April, 1960.

Tipping in the disused railway cutting at Watnall was commenced on the 2nd May, 1960. The whole of the cutting east of No. 15 bridge on New Farm Lane was completed and soiled down by the 30th September, 1960.

Site works carried out to make the cutting usable included the construction and fencing of a service road into the floor of the cutting from New Farm Lane, the erection of garage for Drott Tractor, cabin and fuel store, the laying of 500 yards of 12 inch by 6 feet lengths of concrete pipes to carry spring water through the length of the site from its western boundary, discharging into an open track channel on the east boundary.

The use of the Watnall Tip has involved an average of an extra 13 miles per load for the return journey, for which 45 minutes is allowed.

MECHANICAL PLANT.—The Sub Committee dealing with sites for tipping and refuse collection vehicles recommended the purchase of an International B.T.D.-6 Tractor fitted with a Drott 4 in 1 bucket at a cost of £3,840. This equipment came into service on the 9th March, 1960, and has proved highly successful in the levelling and compaction of refuse and excavating of soil for covering down purposes. 1960 can therefore be regarded as the turning point in the use of modern large capacity vehicles and mechanical plant.

Sum	mary of Complaints ar	nd Requ	uests	received	, 1960

Sewer Treatment

Following Test baiting in April, 1960, recommended treatment was carried out in May on 70 manholes in 23 streets when 20 takes were recorded. Treatment was continued with Warfarin until no takes were recorded in all manholes.

RAG FLOCK AND OTHER FILLING MATERIALS ACT, 1951.—One application was received to store Rag Flock on new wholesale premises within the district. This was approved.

HOUSING

Rent Act, 1957.

The Rent Act Sub-Committee meets every month. Everything now seems to work smoothly after the initial teething troubles. Owners, Agents and Tenants now appear to be more conversant with the prescribed procedure.

Waiting List for Council Houses

The Waiting List showed a further decrease of 31 at the end of 1960, giving a total of 499 as against 530 at the end of 1959. This gradual decrease has been steadily maintained over the 9 years since the peak year in 1951 with a total of 964 cases on the Waiting List.

Of the 92 New houses and Re-lets during 1960, 23 (25%) were allocated to Slum Clearance re-housing, as against 74 (54%) in 1959.

The remainder of the houses on the Kiddier Estate were completed early in 1960, and the 30 houses on the Sherbrook Road Estate were completed and let by the middle of May, 1960.

	(1) Number of separate tenements or underground rooms in respect of which Closing Orders were made	2
	(2) Number of separate tenements or underground rooms in respect of which Closing Orders were determined, the tenement or room having been	
	rendered fit	0

4. Housing Act, 1936—Part IV.—Overcrowding:

No reliable information is available, other than the serious overcrowding existing in the immediate post war years has been abated.

INSPECTION AND SUPERVISION OF FOOD

Food Inspection

85 visits and inspections were made to food premises during the year, excluding visits to slaughterhouses for the purpose of meat inspection.

No proceedings were instituted during the year for contravention of Food Regulations, or for the sale or preparation of food unfit for human consumption.

Ice Cream

Seventy-six premises are registered in the District for the manufacture and/or sale of ice cream, an addition of 1 as compared with 1959.

Manufacture (Heat Treatment)	1
Manufacturers (Complete Cold Mix).	6
Retailers	69
Total	76
	_

No samples of Ice Cream were submitted to the Public Health Laboratory for bacteriological examination.

Milk and Dairies

The number of dairies and distributors registered by the Council at 31st December, 1960 were as follows:

	with Dairy premises	• •	10

Sampling

No samples of Milk were obtained by the Department during the year, but this is covered by the samples taken by the County Food and Drugs Department, details as follows:

Milk (Special Designation) (Pasteurised and Sterilised) Milk Regulations 1949-53.

I am indebted to Mr. Gregory, Chief Weights and Measures and Food and Drugs Inspector, Notts. County Council, for the following Information relating to samples of milk taken by the County Sampling Officers during the year under the above regulations.

Pasteurised, Heat Treated, etc., Milk 52 samples, 52 satisfactory. Bacteriological examination of Milk Bottles, 42—satisfactory.

Seventy-eight Milk samples under Food and Drugs Act, 1955, as to quality, fat content or chemical analysis, details of Mr. Gregory's report will be found on the last page of this report.

Unsound Food

The following summarises the foods examined during the year which were found to be unfit for human consumption and subsequently destroyed after being voluntarily surrendered. No formal seizure of unsound foods was found necessary. 79 Condemnation certificates were issued in respect of the following.

		Meat	
Bacon			65 lb, 12 oz.
Beef Loaf			1 tin
Braised Kidney			13 tins
Braised Liver			22 tins
Chopped Pork			2 lb. 2 oz.
Corned Beef			28 Large tins
Corned Beef			112 Small tins
Ham			47 Large tins
Cooked Ham (slic	ed)		20 lb. 0 oz.
Luncheon Meat			59 tins (8 lb.)

Tongue			$2 ext{ tins} + (16 ext{ lb. } 2 ext{ oz.})$
Veal	• •	• •	11 lb. 12 oz.
		Fish	
Fish			31 tins

Fruit and Vegetables

Apples			 144 tins
Apricots			 13 tins
Beans			 3 tins
Carrots			 7 tins
Fruit Salad			 3 tins
Grapefruit			 5 tins
Oranges			 7 tins
Peaches			 29 tins
Pears			 21 tins
Peas			 8 tins
Pineapple			 24 tins
Rhubarb			 1 tin
Soup			 36 tins
Strawberries	S		 1 tin
			 88 tins
Vegetable C	asserol	e	 6 tins

Miscellaneous

Bacon Pr	udding			3 tins	
Butter				1 lb.	
Cake				11 lb.	
Cheese					
(Cheese	e Spread	1 1 lb.	3 oz.)	228 lb. 11 o	7, ,
Cream				1 tin	
Kidney I	Pies			2	
Lard				96 lb.	

Slaughterhouses

There are 4 private slaughterhouses in the district. Extensive alterations and extensions have been carried out at 1 slaughterhouse which may now be described as a private abattoir of a firm of Wholesale Meat Traders.

The premises have been well conducted. 15 routine visits were made during the year for purposes other than Meat Inspection.

SLAUGHTERHOUSE REPORT.—In accordance with the requirements of Section 3 of the Slaughterhouses Act 1958 and Orders made thereunder, a Draft Report on the Slaughterhouse facilities in the Urban District of Arnold was prepared and approved by the Council and submitted to the Minister of Agriculture, Fisheries and Food, after consultations with adjacent Local Authorities and organisations directly interested in the Meat trade. Further details of subsequent decisions will be given in the 1961 Annual Report.

Meat Inspection

This work continues to be a major operation not only in importance but in the amount of time taken up by the technical staff of the Department.

Every effort was made to maintain a 100% examination of carcases but this meant that other duties of the Department were adversely affected.

A total of 1,393 (1,456) visits were made when a total of 36,071 (23,795) carcases were examined as follows:—

		1960		1959
Cows Heifers and Bulloc			• •	(1,430) (3,155)
